

# WARREN FARM RADIO FLYERS **WFRF**

*A good showing at the recent Fun Day.*

## **AUGUST AT RECTORY PARK**

### **FUN DAY AT RECTORY PARK**

We were recently contacted by Tim Goodwin, of Network Homes, the property developer carrying out the regeneration of the Rectory Park Avenue Estate, the flats to the Eastern (right hand) end of our flying site. They invited us to take part in a Fun Day, which is intended to raise the profile of the estate and encourage new blood to the area.

Although this all had to be arranged at short notice, we managed to put on a good static display, with no less than 10 models and 8 club members attending to answer questions and speak to the public.

We were also visited during the day by several officials and councillors from LBE, who listened to our concerns about the future relocation of our flying site.

All in all, the day was a great success, made even more enjoyable by the music emanating from a wonderful steel band performing nearby.

Many thanks to the club members and others who came to help out – Paul, Chris, Simon, Tamas, Raj, Blake and Blake's father. It would be great to do this again, and if we have more notice perhaps we could even fly next time, provided that the football redevelopment is not too close.

### **FIELD CONDITION AND AVAILABILITY**

The field remains in good condition, and the cricketers are still cooperating with us.

For those concerned about access to the proposed northern field, we now have a key to the car park adjacent to the toilet block, so when we move we will be able to park there and walk either through the trees, or along the gravel footpath if the grass is muddy.
