FEBRUARY AT WARREN FARM

Our apologies for the late newsletter.

The system for booking sports fixtures has changed, and we have experienced difficulty in obtaining the necessary information.

The field availability details published each month have, until now, been compiled from information provided by Rahul at the LBE Sports Bookings Office. However, Sports Bookings has now been transferred from LBE to Enterprise Plc, who will continue to provide us with the information.

We would like to take this opportunity to thank Rahul for all the help he has provided over the last few years.

We understand that the field will be available each Saturday morning in January, although there are a couple of Saturday afternoon matches.

Sundays should be wall-to-wall football, although it is possible these matches may be cancelled due to the weather and the condition of the field.

Cancelled matches may be rescheduled for later in the season, so there may be some resulting disruption to our activities.

We recommend that hand-launch models only are flown, as the condition of the field will be unsuitable for take-off and landing.

WARREN FARM UPDATE

As we go to press, we learn that the proposed changes to Warren Farm have been discussed by the committee of Norwood Green Residents Association. Some concern was expressed at how the proposed tenancy agreement would affect the local community.

It is good to know that our concerns for the future of Warren Farm are shared by others, particularly as their views carry more weight than ours.

AND FINALLY

Saturday 4th February. A cold winter morning. Frost on the ground, heavy snow forecast for later in the day.

Hardly ideal conditions for flying – or was it. One forlorn figure occupied Warren Farm, huddled against the freezing temperatures and struggling to feel the sticks through frostbitten fingers.

Well done, Paul. You are made of sterner stuff than the rest of us!
