

WARREN FARM RADIO FLYERS

JANUARY AT WARREN FARM

RENEWALS

Many thanks to all of you who have renewed. The BMFA membership is now being processed, and certificates should be available in a few weeks. We have lost two members who have moved away, but a few renewals are still outstanding. If you have not yet renewed, you will need to renew your BMFA and CAA Registration by contacting the BMFA either online or by phone.

If you are unable to print your certificate, please contact Bob, who will be able to print one for you. Club membership cards will be available in a few days.

Please remember that you are required to carry your club membership card, BMFA Certificate and CAA Registration with you whenever you fly at the field. Also, your CAA Registration Number must be displayed on your model, either on the fuselage or within a hatch which can be opened without the use of a tool.

NEW MEMBERS

We are pleased to welcome two new members, local residents Jack Pugh and his father Greg. We look forward to seeing them on site very soon.

We still have vacancies for new members. If you know of any potential recruits, please put them in touch with us. Experienced instructors will be especially welcome.

ZIPPO'S CIRCUS

We expect Zippo's Circus to remain on site until at least the end of January. Their presence has caused no problems, and may well have discouraged the vandalism which often occurs during holiday periods.

We will arrange for the toilet to be serviced as soon as the circus leaves.

FIELD CONDITION

The grass is not in good condition, however some flying has been possible for aircraft with large wheels, or which have a very short take-off run.

The next mow will not take place until the spring. We have requested that the grounds maintenance team revert to a cylinder mower with rollers, as the twin-rotary mower used during the wet weather has damaged the surface.

We will be carrying out a survey shortly to see if attempts to fill the rabbit holes have been successful, or whether the furry fiends are still excavating the runway.

AND FINALLY

We wish all WFRF members a Happy and Fruitful 2023, with plenty of good flying weather, some new models in the air and hopefully getting some more of you through the BMFA Achievement Scheme, so go to the BMFA website and study the "A" Test Schedule and questions.
