

# WARREN FARM RADIO FLYERS **WFRF**

*Proper aeromodelling – Mick Penny has built this RBC Jimmy, details below.*

## NOVEMBER AT WARREN FARM

### MEMBERSHIP RENEWALS

As usual, there will be no December newsletter, instead we shall be sending out the membership renewal packs.

Although we know that our licence fee, payable to Ealing Council, will rise this year, we have decided to maintain the subscription at £42. We hope that enough members will renew to cover the licence fee, otherwise we shall need to absorb the additional cost.

We also hope to recruit a few new members to help with the cost.

We do not yet know the cost of BMFA renewals, which will be decided at their AGM later this month. We also await details of any increase in the CAA Registration, which currently stands at £10.33 pa.

### FIELD CONDITION

The runway has now received its last mow of the season, we can only hope that it does not grow too long before the first cut of the year in March.

Many thanks to John Carpenter and Matt Sugden at Greener Ealing, who have arranged regular mowing and filling in of the rabbit holes.

### ANOTHER NEW MODEL!

One of our more recent recruits has been at the field with a very cute RBC Jimmy trainer, a traditional all-balsa open structure kit with a 1m wingspan.

The object of the exercise is to eventually introduce his grandsons to the joys of model flying, however he first has to master the art himself. He is being provided with both flying tuition and technical support by Paul Perkins. Great to see that proper aeromodelling is still alive and well.
