

WARREN FARM RADIO FLYERS **WFRF**

A small but hardy contingent of club members brave the cold damp weather on Boxing Day.

JANUARY AT WARREN FARM

Firstly, a very Happy New year to all WFRF members. WE hope this year will be more successful than 2023, when much of our flying activity was curtailed by bad weather.

MEMBERSHIP RENEWALS

Many thanks to all who rejoined the club. To date, we have had only 1 member who declined to rejoin, and two members who have not yet been in contact. We hope they will rejoin in due course.

New club cards will be in the post in the next few days.

As our licence fee has been increased, we hope to attract new members during 2024. As things stand, we will probably need to increase the subscription next year to cover the increased costs, but if we can attract new members this increase can be minimised.

If you know any potential new members, please put them in contact with us.

FIELD CONDITION

Most of the runway is still in good condition, although there is a rabbit hole right in the middle. As no mowing is taking place, this will probably not be repaired by the LBE team, but we will try to fill it as soon as the weather improves. Any help would be much appreciated, as the buckets of soil are heavy!

WINTER FLYING!

A few brave souls ventured out to fly on a cold Boxing Day. This was a reminder of the times when your editor was a member of Hanworth Airpark MFC. They always had large meetings on Boxing Day and New Years Day. Perhaps next year we will be able to consider doing likewise.
