

# WARREN FARM RADIO FLYERS

*A good turnout of members & models at the 2023 Village Day.*

## JULY AT WARREN FARM

### NORWOOD GREEN VILLAGE DAY - 20<sup>th</sup> July

We will again be making an appearance at Norwood Green Village Day.

This is the one time in the year that we are able to bring our activities to the attention of the public, and more importantly to Ealing Council. We need extra help this year, as your editor is not yet back to full fitness after his recent accident.

We need a variety of well-presented models for the static display, as well as some muscle for setting up the stand and roping off the area. During the day, help will be needed in explaining our activities to the public.

Setting-up begins at 10am, with the public on site from 12 noon. We usually finish by 5pm. We do not expect members to stay for the whole time - we can stagger it in shifts.

Food and drink are available, and there are toilets at St. Mary's Church and in The Plough (arguably the best pub in Southall!!). The Plough will also have a bar on the green during the event!

There is parking on site for exhibitors, and access is by the gate at the corner of Norwood Road and Tentelow Lane, opposite the Norwood Green Care Home.

### FIELD CONDITION

Our previous newsletter mentioned that the runway was in poor condition, and that the LBE contractors were unable to cut the wet grass with their rotary mower.

No sooner had the newsletter been published than we learned that they had, in fact, managed to carry out mowing to a very high standard. Many thanks to John Carpenter at Greener Ealing for getting this organised.

The grass is still fairly short, although the weeds are springing up, so perhaps another cut will be due soon. Also, there seem to be very few new rabbit holes – perhaps the dry ground is too hard for them to dig.
