

WARREN FARM RADIO FLYERS

JANUARY AT WARREN FARM

HAPPY NEW YEAR

A happy New Year to all WFRF members. We have had a good response to renewals, with only a couple of members not yet renewed.

We have also welcomed David Drackley into our ranks. He is not local, but will be flying with us whenever he visits his family in Ealing.

A FEW BRAVE SOULS

Several members have been making use of the near-deserted Warren Farm over the Christmas/New Year break. Well done to Richard & Wayne for being brave enough (or daft enough) to risk double pneumonia to keep the flag flying in such horrible conditions.

PLANS FOR 2025

We are hoping to attract more members to the club, as our current membership numbers do not quite cover our outgoings. To this end, we arranged for an article about the club to be published in the most recent edition of RCM&E. We have also submitted an article for publication in the BMFA magazine.

We also hope to bring many more of our members up to "A" certificate standard, so that we can undertake a program of tests.

We are also planning to present our usual static display at Norwood Green Village Day, date to be confirmed. We usually attract a lot of attention, and both the food and music are well worth the visit! More details in due course.

FIELD CONDITION

The runway is still usable, as the grass has not grown much in the cold conditions.

We have been informed that the so-called "Rabbit Holes" may be nothing of the sort. A regular visitor to the site has informed us that they found one of the dog walkers allowing his Beagle to dig large holes. If you see that occurring, please respectfully advise them that this is NOT acceptable behaviour, and that if they do so again then we will have no option but to take legal steps to prevent a repetition.

AND FINALLY

We expect our friends at Zippo's Circus to be vacating the site very soon. It has been good meeting them again. They are back in the area in April, at Acton Green, although they may not be using Warren Farm. They have, in the past, performed on Norwood Green, and it would be great to see them in action.
