

# WARREN FARM RADIO FLYERS

**This is the July 2025 Newsletter.**

**The weather in June was particularly windy, so flying time was very limited. Well done to the members who headed up to Ivinghoe Beacon for a bit of slop soaring! Great alternative!**

**The heatwave didn't help either. However, July is looking much better, and the heatwave has left the field in great condition for take-offs and landings!**

**I have now moved the club account to on-line banking at HSBC. I will be signing Richard on as a signatory in the next few days. The bank has cancelled the usual £5 per month bank charge, which will help our finances.**

**As mentioned last month, it would be useful to have a few more members, so if you know anyone who is keen to try model flying, bring them along for a trial flight.**

**As the Summer continues, remember:**

- Bring sun cream and a cold drink to the field if the weather warrants it.
- Check your sunglasses cut out all UVA and UVB sunlight
- Wear a hat

**Below are a few photos from June.**

**Paul**

**Despite the windy weather, we have managed to get in some excellent flying. Here are some examples.**

Olliver brought a slope soarer to the field and caught some good thermals.

Richard's Futura flies in any conditions!

Waynes Wot4 has been great value.
