

WARREN FARM RADIO FLYERS

This is the August 2025 Newsletter.

August weather has been great for flying most days – let's hope it continues!

The landing strip is becoming over-run with ragwort even though the grass itself is still short. This has damaged a couple of planes. Richard has asked the council to cut it again for us.

I have signed Richard on as a second signatory for the Club bank account.

As ever, it would be useful to have a few more members, so if you know anyone who is keen to try model flying, bring them along for a trial flight.

Ken keeps a pair of secateurs and some gardening gloves in his boot to cut back any brambles that appear at this time of year. I have done the same. Let us know if you are having any problems.

With the improving weather, we are seeing more members at the field. On 2nd August we had five members flying!

As the Summer continues, remember:

- **Bring sun cream and a cold drink to the field if the weather warrants it.**
- **Check your sunglasses cut out all UVA and UVB sunlight**
- **Wear a hat**

Below are a few photos from July.

Paul

It's early in August, but we have already managed to get in some excellent flying. Here are some examples.

 A photograph showing two model airplanes on a grassy field. On the left is a white biplane with red and blue markings. On the right is a white monoplane with red and blue markings. A small black bag is on the ground between them.	<p>Paul was flying the Yak and the Advance (again!!)</p>
 A photograph showing two people standing in a grassy field. One person is holding a model airplane. Several other model airplanes and equipment are scattered on the ground around them.	<p>Jay's slope soarer had a very neat wing attachment system</p> <p>The gang arrives!</p>
 A photograph showing two model airplanes on a grassy field. On the left is a white biplane with red and blue markings. On the right is a white monoplane with red and blue markings. A small black bag is on the ground between them.	<p>Jay maiden a slope soarer which performed really nicely. He also had his speed machine!</p>
